EXPERIENCE

-  **Software Development Engineer Intern** Andheri, Mumbai
Veeva — *LangChain, Amazon Bedrock, Python, YouTube Data API, N8N* Aug 2025 – Present
 - Building an AI-powered YouTube coach using LLMs and **LangChain agents** to offer creators real-time, personalized insights for titles, SEO, and strategy.
 - Contributing to tool development like **Script Analyser**, **Keyword Explorer** and **Thumbnail Analyzer**, leveraging **YouTube Data API**, Bedrock-hosted models, and **n8n** for automated workflows.
-  **The Linux Foundation** Remote
Open Source Security Foundation — *GoLang, Python, NextJs, Flask, React-flow, Security Policy Design* June 2025 – Present
 - Building a **metadata visualization tool** for **gittuf**, improving understanding of its metadata structure inspired by The Update Framework (TUF), especially for new users and complex policies.
 - Implementing **time-limited approvals** to allow temporary, policy-compliant exceptions—enabling developers to approve urgent changes without violating security policies.
-  **Software Development Engineer Intern** Remote
Audiopod.ai — *NextJs, Redux, TypeScript, Python, FastAPI, Prisma, NeonDB PostgreSQL* Jan 2025 – March 2025
 - Added **Redux** state management enhancing performance, scalability, and efficiency.
 - Developed 3 **media tools** using **FFmpeg** and extended **Payload CMS** with support for tables and interactive media, improving content handling and team workflows.
-  **Google Summer of Code** Remote
CCExtractor — *Flutter, GetX, CI/CD, Clean Architecture, Multi-platform* May 2024 – Aug 2024
 - Implemented **Clean Architecture** with modular feature separation, **singleton controllers**, and **dependency injection** using GetX for scalable, testable codebase across 5 platforms.
 - Set up robust **CI/CD pipelines**, added unit/widget tests, dark mode, multilingual support, and enhanced GitHub workflows while ensuring high code quality via reviews.

PROJECTS

-  **AudiAI** | *Next.js, TypeScript, GenAI, Python, OpenCV, Flask, FFmpeg*
 - Built an AI-powered video generation app with **auto-zoom object focus**, **shorts from long-form clips**, and **YouTube upload integration** for automated content delivery.
 - Used **Flask APIs**, **FFmpeg**, and OpenCV for script-to-video rendering, with dynamic captioning and seamless multi-backend coordination.
-  **It's Urgent** | *Flutter, Firebase, Dart, GetX, Firebase Cloud Messaging(FCM)*
 - Engineered an app for urgent communication, enabling calls to bypass Silent and Do Not Disturb modes; implemented OTP authentication with **Firebase Auth** and real-time alerts using **FCM**.
 - Used **GetX** for efficient state management and developed **Conditional Passwords** with unique **PINs** for priority-based alerts, ensuring secure and context-aware notification handling.

ACHIEVEMENTS

Codeforces: Achieved **Pupil** rank with a maximum contest rating of **1243**.
1st Runner-Up, DSA Contest by **Coding Ninjas** — Secured 2nd position out of 150+ participants.
1st Runner-Up, DSA Contest at **VESIT Mumbai** — Secured 2nd position across all departments.
2nd Runner-Up, Encode Hackathon, **IIT Guwahati** — Among 1500+ participants.
2nd Runner-Up, I Love Hackathon, **Centurion University, Bhubaneswar** — Among 250+ participants.
2nd Runner-Up, **SmartAI Hackathon** — Among 650+ participants.
Special Mention, I Love Hackathon, **VIT Pune** — Among 500+ participants.

TECHNICAL SKILLS

Languages: Dart, Java, Solidity, C/C++, JavaScript, TypeScript, GoLang, Python
Frameworks/libraries: Flutter, NextJs, React, Node.js, Material-UI, Tailwind, Express.js, Flask, FastAPI
State management: GetX, Bloc, Redux, Context API
Databases: MongoDB, PostgreSQL, Firebase, SQLite, NeonDB

EDUCATION

Vivekanand Education Society's Institute of Technology Chembur, Mumbai
Bachelor of Engineering in Information Technology. Cgpa - 8.48/10 Aug 2022 – May 2026
